

iB1400 / AES SuperPack Smart

component of INTELECTRIC SHS

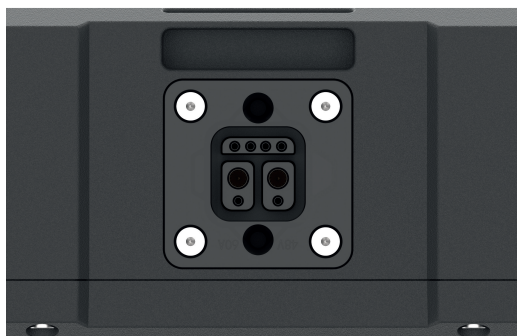

Note:

The AES SuperPack Smart can be integrated as a rental or purchase module. Our INTELECTRA cargo bikes require one or two AES SuperPack Smart batteries for control and commissioning.

iB1400

AES SuperPack Smart

Detail of connection port

BASIC PARAMETERS

Technical details for one battery

Max. Dimension (L*W*H)	400 x 268 x 89 mm
Weight	12 kg
Nominal Voltage	48 V DC
Discharge current	60 A permanent
Capacity	30 Ah
Energy	1.440 Wh
Type of cell chemistry	3,2 V / 15 Ah LiFePO4

KEY FEATURES

Can be used for large electric cargo vehicles with motors that have a peak output of 3kW.

Robust and safe

Extremely reliable and short charging time possible

easy to repair: cells are individually exchangeable
