

INTELECTRA CARGOBIKE L

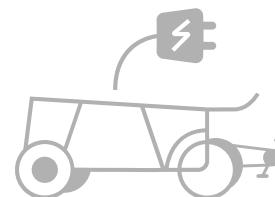

E-Cargobike of DYNAMIC DRIVES GIESSEN

No driver's license, no taxes, no traffic jams, parking right on your doorstep. With our maneuverable cargo bikes, everyone can reach their destination according to e-bike standards - whether on the road or the cycle path.

With our sophisticated modular platform and Plug&Play system, changing tires, wheels and engines is quick and easy. The individual components can be replaced and reused in just a few simple steps.

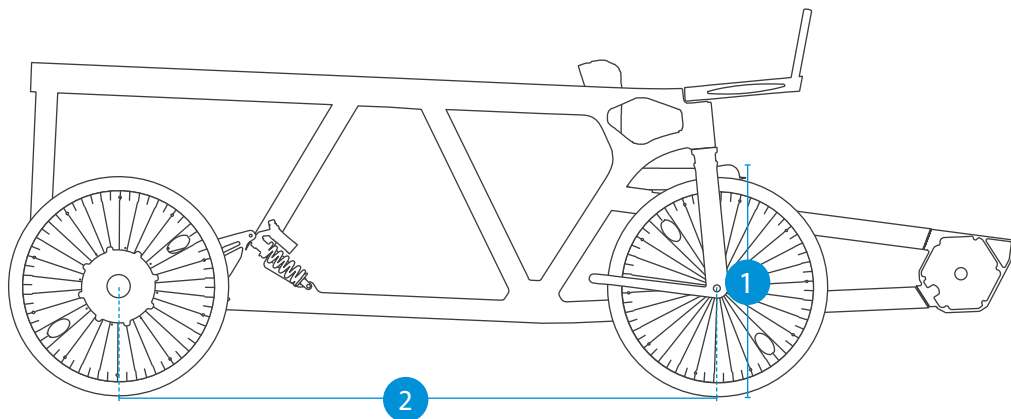

The INTELECTRA Cargobike is developed for a wide range of applications in urban areas. All components of our modern, virtually maintenance-free serial hybrid drive system (iSHS) are optimized for use in multi-track vehicles.
